PROFESSIONAL SUMMARY

Results-driven Product Manager with 5+ years building and scaling **AI SaaS**, eCommerce **marketplaces**, and **B2B enterprise** products. Proven track record of launching 0-to-1 products, tripling ARR, and closing enterprise clients including Indian Parliament (Sansad), Tata Motors, L&T, and Decathlon and many more. Deep expertise in **LLM/AI**, **voice GenAI** pipelines, **hyperlocal** commerce, and **SaaS** products. Comfortable operating from C-suite strategy to ground-level sprint execution. Seeking high-impact roles in (B2B/B2C) eCommerce, SaaS, and AI domains. Full portfolio & case studies: shivam001joshi.github.io

TOP ACHIEVEMENTS

- 🏆 Secured \$1M seed funding for a Q-commerce startup; backed by investors behind Canva, NinjaCart & more
- 📈 Grew ARR 3× and expanded client pipeline 4× for a B2B AI (LLM/NMT) SaaS platform
- 🗣️ Conceptualized and launched the industry's first voice-based CAT (Computer-Assisted Translation) tool for regional languages — 10× efficiency gain in translation, transcription (text, audio, video) for professional translators
- 🛒 Scaled Justdial's seller digital catalog from 0 to 300k+ live products with 18% WoW growth in 3 months
- 🚀 Built internal audit & content platform serving 6,000+ daily users at Justdial/Reliance — 25k+ documents processed, <3% out-of-stock achieved

CORE SKILLS & EXPERTISE

Domain: AI SaaS · Agentic AI · eCommerce & Marketplace · B2B Enterprise · Hyperlocal · LLM (Voice/Text)
Product: 0-to-1 Launches · Roadmapping · PRD/BRD · SDLC · Agile/Scrum · A/B Testing · User Research
Growth & GTM: ARR Growth · Pipeline Expansion · Pricing Strategy · Partnership Development · Sales Enablement
eCommerce: 10-to-100 Growth · Catalog Management · Seller Onboarding · Inventory Systems · Hyperlocal Delivery · Marketplace Ops
SaaS: API-led Growth · Plugin Integrations · Modular Pricing · Enterprise Sales Cycles · Upsell Strategy
Tech Stack: Python · SQL · PHP/Laravel · ML basics · AWS · GCP · REST APIs
Stakeholders: CXO Collaboration · Cross-functional Teams · Digital Agencies · Government Bodies · Enterprise Clients

WORK EXPERIENCE

Product Manager | Reverie Language Technologies (Reliance Jio) · ★ Star Performer Jan 2024 – Present

Anuvadak – AI Localisation SaaS | LLM · NMT · Speech · Translation · Transcription · API Platform

Product Innovation

- Conceptualised and launched the **industry's first voice-based CAT** (Computer-Assisted Translation) tool for regional Indian languages — improving work efficiency (text, audio, video workflows) by 10×
- Repositioned product from a web tool to a 360° digital localisation platform (Web, App, SaaS, API), unlocking new revenue streams and expanding addressable market significantly

- Worked with R&D to build in-house speech AI pipeline (**STT** → **NMT** → **TTS** → **LLM agents**) from whiteboard to production — rare end-to-end AI model ownership for 22+ Indian regional languages

Growth & Revenue

- Grew client pipeline and revenue by 3× through API-led integrations, modular pricing, and strategic partnerships
- Increased client acquisition 3× by designing plug-and-play plugin integration solutions compatible with diverse tech stacks
- Established partnerships with Tier-1 digital agencies, cutting the enterprise sales cycle by 3×

Key Clients

- Government: Sansad (Indian Parliament), NPI (National Payments Interface), Income Tax Department, and other central government bodies
- Enterprise: Decathlon, Tata Motors, L&T, Solvezy, and many more leading Indian and global enterprises

Marketing, Sales and Delivery

- Strategically owned end to end business pipeline with all functions scaling both organic and paid - inbound and outbound acquisition channels

Founder & CPO | **Stealth AI SaaS Startup** Nov 2022 – Dec 2023

AI-powered brand content automation platform (social media creation, verification & publishing)

- Conceptualised, built, and shipped an AI SaaS tool automating brand content creation, quality verification, and multi-channel publishing
- Closed 20+ digital marketing agency partnerships during MVP phase, validating product-market fit
- Led a team of 7+ engineers and marketers; ran 3+ daily customer discovery interviews to continuously sharpen the core value proposition and prioritise the roadmap
- Operated lean 0-to-1 lifecycle: ideation → design → engineering → GTM → growth, with full P&L ownership

Associate Product Manager | **Justdial (JD Shopping – Reliance)** Feb 2022 – Sep 2022

Digital Catalog, Seller Onboarding & Hyperlocal Marketplace (B2C · B2B Seller Platform)

Catalog & Analytics

- Launched and scaled the seller Digital Catalog from 0 to **300k+ live products** with **18% WoW** growth in just 3 months
- Reduced product upload time from 2 minutes per item to 10,000 products/second — a 30,000× efficiency improvement through product bank and batch processing architecture
- Led catalog enrichment (A+ content, quality images, expiry dates, multi-price, FSSAI compliance) achieving 80% attribute fill rates
- Built real-time analytics dashboards tracking 500k product uploads and 15k live sellers, achieving **<3% out-of-stock rates**

Product Bank & Audit

- Integrated JD's product information bank with 20M+ SKUs, reducing onboarding TAT to 1 day
- Designed and implemented automated auditing rules: multi-pricing, back-and-forth image verification, category-specific compliance checks (FSSAI, expiry for FMCG, etc.) — auditing 25k+ seller documents

Operations & Training

- Trained Reliance-led operations and JD customer support teams on merchant onboarding, catalog management, and dispute resolution
- Provided real-time 24×7 ground support to identify marketplace friction points and convert them into product improvements

Co-Founder & CPO | **Roketshelf – Q-Commerce (15-Min Grocery)** Aug 2021 – Jan 2022

Dark store-based hyperlocal grocery startup | Product · Tech · Marketing ownership

- Co-founded and launched MVP for a **15-minute grocery** delivery startup; secured \$1M seed funding with **LTV/CAC > 4**
- Built end-to-end tech ecosystem: consumer app, picker app, delivery management system, and real-time inventory control
- Partnered with a UK-based Q-commerce startup (\$100M+ valuation) for joint product roadmap, dark store layout optimisation, and emerging market knowledge exchange
- Drove digital acquisition achieving **25% WoW customer growth** and **>45% order retention**; discovered that customers ordering heavy items (10kg+) showed ~2× better 30-day retention — repositioned GTM around this behavioural insight

Product Consultant & Freelancer | **Independent (Startups)** May 2020 – Jun 2021

Consulted, designed, and launched products across AI, SaaS, and eCommerce domains

- Delivered MVPs for startups across AI, SaaS, and eCommerce: no-code automation tool, movie artist marketplace, quality control app, career Q&A platform, SaaS donation platform
- Founded Winy — a mental health counselling platform — onboarding 14+ licensed psychologists during COVID-19

Senior Product Analyst | Brushyourideas (Biztech) – Global B2B SaaS Aug 2018 – Mar 2020

Web-to-Print Design Tool & ERP | B2B SaaS | Global Market

- Designed and launched flagship **3D/2D product configurator and ERP** solution for **international Print-on-Demand** industry, making it the best-performing product in the portfolio with 2× revenue growth
- Drove pricing strategy overhaul, increasing average deal size from \$300 to \$10,000+ per contract
- Participated in 100+ hours of sales calls and marketing reviews, continuously iterating on product-market fit across international B2B segments

EDUCATION & CERTIFICATIONS

B.Tech / B.E. – Computer Science RTU, India · 2014–2018 + **Specialisation: Data Science & Business Analytics by IBM**

- Machine Learning – Andrew Ng, Stanford University (Coursera)
- Applied Plotting, Charting & Data Representation in Python – University of Michigan

AWARDS & RECOGNITION

- 🏆 Winner – Prarambh Startup Competition, IIM Udaipur (2015)
- 🏛️ Startup Incubation Winner – Atal Innovation Mission by Govt. of India at NMIMS (2017)
- ★ Star Performer – Reverie Language Technologies (2024–25)
